

# ALFIN ARIYADI PRAMANA

## NETWORK ENGINEER

### ABOUT ME

I graduated from SMK Negeri 1 Klaten, majoring in Computer and Network Engineering. I'm really interested in networking and server systems. I have experience in network configuration, Linux server installation, and troubleshooting. I learned a lot about how IT works in real projects. Outside of school, I like exploring new tech, reading and sometimes cycling or creating digital content. I want to keep learning and improving myself so I can become a reliable Network Engineer.

### EDUCATION

**2014-2020**

**SD NEGERI 2 KRAJAN**
